**Kipepeo Community Empowerment Program (KCEP)**

Issue December 2012

*Our achievements of this year, gives Kipepeo Community Empowerment Program (KCEP) the chance to flutter to a new year full of opportunities and great ideas.*

*In this newsletter we will look back to the activities we organized in December 2012.*

## **Insurance orphans**

We helped three families to get a health insurance. We think this is a basic need for every child in the world. KCEP is very proud that there was a opportunity to provided them in this need.

## **Holiday tuition**

Because of the vacation, we arrange some tuition to our orphans. In this way they also practice outside of school, in another environment. We give them individual attention to improve the skills of every child.

## **Graduating**

We would like to congratulate the students of the computer classes of this month. These are the 12th and 13th classes who graduated. It is a great accomplishment and it will help them in the future. In this way we also want to thank the volunteer teachers of these classes for there effort and motivation.

## **Christmas party**

This year we closed with a successful Christmas party. The main goal of this celebration was to give the street children of Luanda and the orphans a nice Christmas. Even it was a rainy day, we can say that we accomplished this goal. We bought the children some presents, had a tasteful lunch, played a few games and decorated our Christmas tree with wishes from the participants.

**2013**

KCEP has the spirit to continue the projects to empower the community. That is why an other location, with the function of a community centre, is necessary. It will help us to work effective and see the growth of our organization and target groups. We are still looking for a nice piece of land to succeed this goal.
